TRISCOOT ASSEMBLY INSTRUCTIONS

A. Assembly Instructions for the 3-shelf Hot TriScoot cart.

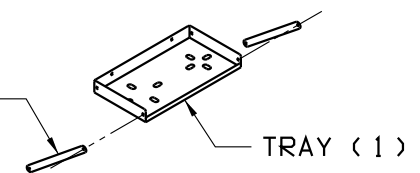

1. Refer to drawing for list of parts to assist in assembly (hole configuration on shelves differ with the model ordered). Assemble entire unit BEFORE tightening nuts and bolts completely.
2. It is easiest to assemble on a table or workbench. Position a side with flanges up on a work surface.
3. Insert a shelf into the side with the flat shelf surface flush with the top of the cart. Insert bolts from outside into corresponding holes, hand tighten nuts.
4. Repeat step three with the remaining two shelves.
5. Place the other side over the shelves. Insert bolts and hand tighten.
6. Attach casters and fully tighten these nuts and bolts.
7. Stand the unit upright. Insert bolts into the remaining holes on the sides and hand tighten with the nuts provided.
8. Use a square to keep the shelves 90° from the sides and **TIGHTEN ALL BOLTS AND NUTS.**
9. Check all fasteners periodically to assure tightness.

B. Assembly instructions for Hot Side Tray kit (optional)

1. Bolt tray into corresponding holes on the outside where desired on the cart.
2. Attach two support brackets to the outside ends of the tray using the bolt and nuts provided.
3. Pivot support brackets until they align with holes on the TriScoot sides and secure with bolts and nuts supplied.
